

IUIS

# Clinical Immunology

### Clinical Immunology (CIC)

- *Promote clinical immunology and training courses, particularly for clinical topics such as infectious diseases, immunodeficiencies, autoimmunity etc.*
- *Intensive use of Immunopaedia as a case study and working tool*
- *Reach better participation of regional societies*
- *Get BMGF funding for workshops in four corners of Africa*

**IMMUNO COLUMBIA COURSE**

**(IUIS/ALAI Workshop “Immune regulation in health and disease”, October 10-13, 2015, Medellin, Columbia)**

**IMMUNO SOUTH AFRICA COURSE**

**(Southern African Regional FAIS/IUIS Workshop “Correlates of immune protection in HIV, TB and malaria”, October 20-24, 2015, Cape Town, SA)**

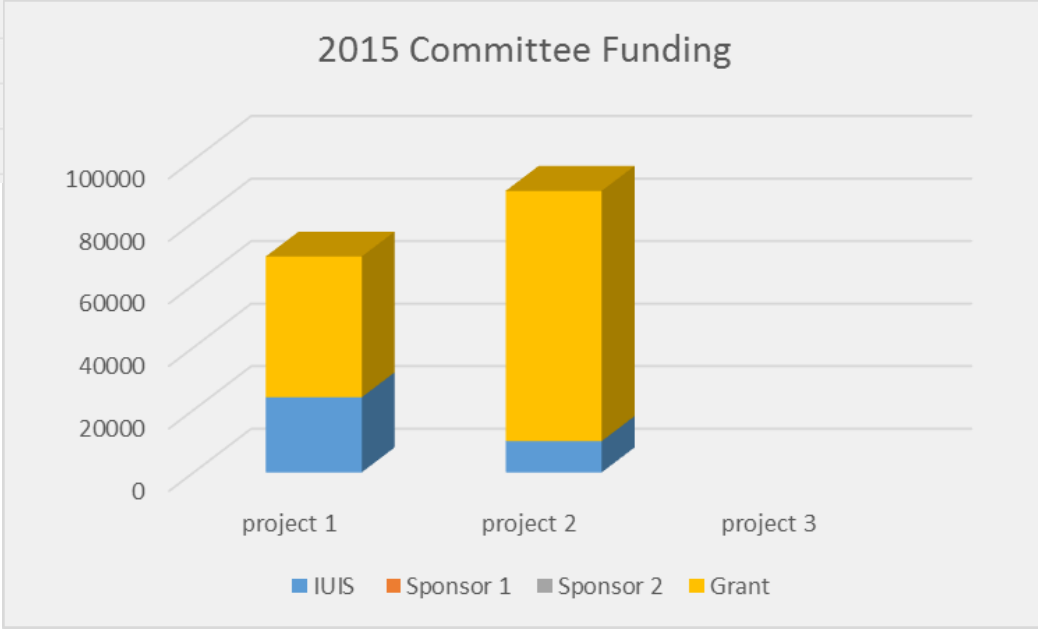

# CIC 2015 & 2016 Budgets

| 2015 FUNDING SOURCE  |       |           |           |               |
|----------------------|-------|-----------|-----------|---------------|
|                      | IUIS  | Sponsor 1 | Sponsor 2 | Grant         |
| project 1            | 24000 |           |           | 45000         |
| project 2            | 10000 |           |           | 80000         |
| project 3            |       |           |           |               |
| sub TOTAL            | 34000 | 0         | 0         | 125000        |
| funding source TOTAL |       |           |           | <b>159000</b> |

NOTES:

- column "IUIS" is to indicate how much of the IUIS funds are allocated for each project
- all other columns to the right of the "IUIS" column is to indicate the other sources of funds your committee receives and how it is allocated to each project.
- each row represents the committee projects or sub-committees
