

## **IUIS Council Member Description**

### **Personal description by the Candidate for 2019-2022 Council:**

I would like to represent ALAI at the IUIS Council at the period (2019-2022).

I am past president of ALAI and I have served in the IUIS Education Committee (2014-2018). I became member of the recently created IUIS Publication Committee. My candidacy was endorsed by the ALAI General Assembly held in Cancun, Mexico, during the last ALAI Meeting in May 2018 at Cancun Q.R. Mexico.

My participation in IUIS began in 2012 when I was elected ALAI's vice-president. Then, in a close collaboration with the Mexican Society of Immunology, we organized the 12<sup>th</sup>. Latin American Congress of Immunology that was held during May 14-18, 2018 at Cancun Q.R. Mexico. I am now serving as Past-President in the ALAI Executive Board until 2021.

My close contact with ALAI and IUIS during these years has provided me with a good knowledge of the Latin American immunology community and with the IUIS activities, that were specially enriched during the years I served to the educational committee.

The activities I have performed under the umbrella of IUIS have reinforced my commitment with the Union and with the development of Immunology, particularly in Latin America. I am willing to enthusiastically participate in the IUIS Council and other instances of the organization.

Candidate for 2019-2022 Council: **Leopoldo Santos Argumendo**
