

**INTERNATIONAL DAY OF IMMUNOLOGY  
2019  
MEXICAN SOCIETY OF IMMUNOLOGY**

This year Mexican Society of Immunology has planned to implement a week of activities devoted to the celebration of the Day of Immunology.

The goal of this agenda is to promote Immunology among undergraduate and graduate students of different disciplines of several Institutions in Mexico. We have the following schedule:

1. April 22-23, 2019. First Symposium of Veterinary Immunology. This event will take place in the Faculty of Veterinary Medicine and Zootechnics of the National Autonomous University of Mexico (UNAM), the main University of Mexico. The goal is to show the importance of Immunology in the Veterinary field to undergraduate and graduate students. Link to the program (Spanish):
