Previous and current composition of the CIC

	Before	Now
CIC members:	9	17
Gender balance:	1 female, 8 male	4 (+4)/13(+4)
Geographical balance:		
Latin America (ALAI):	0	3
Africa (FAIS):	2	3
Asia-Oceania (FIMSA):	3	7
Europe (EFIS):	3	2
US/Canada:	1	2

Some (2) members are happy to stop and will be replaced

Activities of the CIC in 2022

Combined efforts with the Education Committee:

ImmunoZambia December 2022:

Talk by Pierre Miossec

10 KE support for participants from Africa

Definition of clinical immunology :

Serious issue that should have been addressed years ago

The topic will involve the whole CIC for one year

New members in charge: Tineke Cantaert, José Crispin, Alberto Pinzon Charry

Survey of the definitions, training, ... around the world

Written report and publication

First presentation at the Cape Town congress as a round table

Future activities of the CIC

Participation as speakers and support of training courses:

- Training course with FOCIS, Rouen August 2023

- following contact with Olivier Boyer

- Training course with the Education Committee in India in 2023

- following contact with Dieter Kabelitz

- Other training courses to be discussed

Definition of clinical immunology :

- Complete survey around the world

- with Tineke Cantaert, José Crispin, Alberto Pinzon Charry

- Write report for publication

- Present results at the Cape Town congress as a round table

The CIC and the world 2023 congress

Session on IL-17 and Th17 cells with Anne Puel, Pierre Miossec, Vijay Kuchroo

Duration: 1.5 hr

Other sessions may involve CIC proposals and CIC speakers

Round-table discussion on the definition of clinical immunology:

Duration 1 hr

CIC teaching course:

Conditions to be clarified ? Usually at the beginning of the congress

Duration 3 hrs

Members, specifically new members, have been asked to propose topics

Programme almost ready with 6 confirmed talks

Introduction by Clive Gray as President of the congress

Conclusion

A new Committee is in place, with a better representation from all areas from the world

Its activities will be better connected with those of the Education Committee

The project on the definition of clinical immunology around the world is critical for the future of the field
