IUIS Inborn Errors of Immunity Committee

Goals & Objectives

Inborn Errors of Immunity Committee

- To provide an up-to-date classification of all primary immunodeficiency diseases (PIDs)
- To assist with the identification, diagnosis and management of patients with these uncommon conditions
- To support diagnostic and therapeutic guidelines developed by national societies and others, to assist healthcare providers
- To promote awareness, diagnosis and treatment of PIDs in all regions of the world
- To produce ad hoc reports on any aspect of PIDs and to assist in the welfare of patients with these conditions

Activities

- Constant communication for the preparation of the next version of the Classification tables
- 2022 Version of the Classification table
- 2022 Classification was published on the JoCi website (https://link.springer.com/article/10.1007/s10875-022-01289-3)
- 2022 update of the "PID classification" mobile app

Opportunities and Challenges

Challenges:

- Funding: Support of the mobile app, activities with other committees (joint meetings, support for trainees, etc)
- A searchable version of the table at the IUIS website.
- Editorials in journals and activities to promote the committee.
- Continue the standardization of terms with the HPO group.

Future plans

- In-person meeting with all committee members
- 2023 mid-term version of the Classification table
- 2023 update of the "PID classification" mobile app
