THE GLOBAL HOME OF IMMUNOLOGY

About IUIS

Founded in 1969, the **International Union of Immunological Societies (IUIS)** is the leading global organization uniting nearly **30,000 immunologists** through **4 Regional Federations**, **84 National Societies** and **9 Associate Members**.

As a recognized partner of the **World Health Organization** and a member of the **International Science Council**, IUIS connects immunologists across disciplines and geographies to advance science, foster collaboration and advocate for solving people's most urgent health challenges.

Our Vision

Immunology Without Borders

Our Mission

To unite, empower and advance the global immunology community by promoting scientific excellence, equity and collaboration to improve health worldwide.

What we stand for

UNITY

We bring together the global immunology community into one powerful union.

EMPOWERMENT

We uplift all voices, especially early-career scientists and those in low- and middle-income countries.

EXCELLENCE

We champion rigorous science through education, standardization and collaboration.

EQUITY

We support diversity, gender equality and regional inclusion.

IMPACT

We drive research into health solutions that change lives.

MAKE AN IMPACT THAT MATTERS

Why IUIS?

By partnering with IUIS, you can galvanize the role of science at the heart of global progress, contributing to health, economic resilience and social development. Together, we can ensure science is visible, valued and impactful. Your partnership could enable:

Scientific Advocacy

IUIS serves as a defender of vaccine science and a champion of immunological progress. Your partnership will help protect lives, strengthen immunization systems and drive forward the breakthroughs that shape the future of public health.

Equity and Access

Partners can opt to fund travel grants, training courses and awards for scientists from low- and middle-income countries and the next generation of immunologists everywhere.

Global Visibility

Gain access to new global audiences and expand brand recognition through regular webinars, yearly campaigns and the International Congress of Immunology.

Strategic Positioning

Align with IUIS's commitment to the UN Sustainable Development Goals and contribute to a healthier, more equitable world.

Our global footprint

International Congress

Held across all continents, the world's largest immunology gathering unites thousands of experts from 80+ countries.

Education Programs

Over 30 on-site courses, more than 1,200 students trained so far.

Digital Learning

ImmunoHub shares presentations and webinars with a broad audience and enables continuous learning and exchange.

Grants and Awards

Including the Day of Immunology Award, EXCELL Award, Travel4Expertise, Rising Stars Program and more.

Day of Immunology

Celebrating Immunology. Inspiring Public Trust.

Held annually on April 29, the Day of Immunology is a global awareness campaign led by the IUIS and the European Federation of Immunological Societies (EFIS) to:

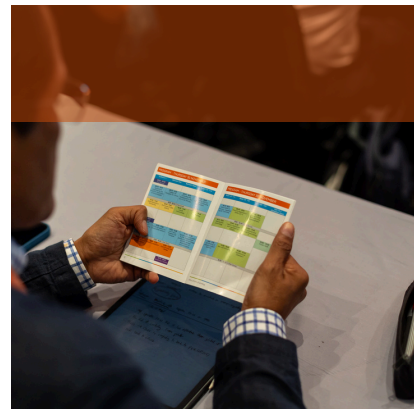

- Raise public understanding of immunology's vital role in health
- Combat misinformation and promote scientific trust
- Showcase national immunology stories

Day of Immunology campaigns reach tens of thousands through events, media and coordinated society outreach.

Your support as a sponsoring partner helps amplify this impact, funding media outreach, toolkits, translation and public engagement across the globe.

FLEXIBLE, HIGH-IMPACT ENGAGEMENT

Partnership level benefits per year

Corporate Partner

€15,000*

- Logo on partners page
- Newsletter visibility (2 features)
- 1 thought-leadership article
- Social media thank-you + 1 dedicated content share
- Co-created webinar with the IUIS committee
- Discussant role in IUIS webinar
- Secondary booth choice at Congress
- 1 virtual networking session
- Visibility metrics summary

Premium Corporate Partner

€30,000*

- Prime logo placement on homepage
- Banner ads in all newsletters
- 2 thought-leadership articles
- Quarterly social media promotion
- 1 branded webinar
- Speaking slot at IUIS events
- Priority booth & sponsored session slots at IUIS Congress when applicable
- Exclusive networking with IUIS leadership
- Mention in impact report

Corporate Supporter

€6,000*

- Logo in supporter section
- Acknowledgement in newsletter & social media
- 2-minute video message during the Day of Immunology
- Supporter listing in global awareness campaigns

Multi-year partnerships will enable lasting impact.

*Annual contribution (excl. VAT)

Drive scientific progress and global research equity

We believe **science should empower everyone**.
With your support, **we can ensure it does**.

Become an IUIS Partner and be a catalyst
for a healthier, more equitable world.
