

A microscopic view of several cells, likely fibroblasts, on a petri dish. The cells are irregularly shaped and have a granular, textured appearance. They are clustered together, with some cells showing more prominent nuclei and others appearing more confluent. The background is a light, yellowish-orange color, typical of a petri dish containing a cell culture medium.

IUIS
Clinical Immunology Committee

Clinical Immunology Committee (CIC)

Pr Pierre Miossec, Lyon, France
Chair

Members of the Clinical Immunology Committee

- Tineke Cantaert F (FIMSA) Phnom Penh, Cambodia
- Guixiu Shi M (FIMSA) Xiamen, China
- Alberto Pinzon Charry M (FIMSA) Queensland, Australia
- Joanne Reed F (FIMSA) Westmead, Australia
- Ahmed Seri M (FAIS) Khartoum, Sudan
- Domenico Mavilio (EFIS) Milano, Italy
- José Crispin M (ALACI) Mexico City, Mexico
- Gisela Seminario F (ALACI) Buenos Aires, Argentina
- Susan Boeno F (ALACI) Santiago, Chile
- Peter Nigrovic F (AAI) Boston, USA

Activities of the CIC in 2025

Survey on the Definition of Clinical Immunology :

Serious issue with heterogeneous definitions around the world

The topic has involved the whole CIC under the leadership of José Crispin with help from Tineke Cantaert, Alberto Pinzon Charry, Domenico Mavilio

Survey of the definitions, training, ... around the world

We received 531 answers from clinical immunologists from 63 countries

Very active contribution from China but poor contribution from the US and Canada

Crispín JC, Cantaert T, Pinzon-Charry A, Mavilio D, Seri Ibrahim Mohamed A, Miossec P. Definition of Clinical Immunology Around the Globe. *Frontiers in Immunology*, 2025, 16: 1483391.

See [10.3389/fimmu.2025.1483391](https://doi.org/10.3389/fimmu.2025.1483391)

Survey on Teaching Immunology at medical schools around the world :

Proposal from discussion at the Cape Town session

Same principle as above

Domenico Mavilio is leading the topic, survey is on-going

Clinical Immunology in the context of war: the example of the war in Sudan

Study under the leadership of Ahmed Seri

Showing the dramatic consequences for those with immune deficiencies

Clinical Immunology Committee symposium 2025

Vienna, August 22, 2025

	Introduction Pierre Miossec, Lyon, France
	Update on targeting the most effective adoptive immune cell therapies Domenico Mavilio, Milano, Italy
	Update on immunopathology of arboviral infections Tineke Cantaert, Phnom Penh, Cambodia
	Update on the cardio-vascular effects of IL-17 Pierre Miossec, Lyon, France
	Update of Neuroimmune Interactions in Regulating Type II Immunity Vijay Kuchroo, Boston, USA

Future activities of the CIC

Leadership

Alberto Pinzon has replaced Pierre Miossec as chair of the CIC.

Pierre Miossec will remain as vice-chair for the transition

Members

Elie Haddad, Montréal, Canada, expert in immunodeficiencies, has joined

New members are being selected to replace those inactive or willing to step down
